CompTIA Security+
with sekurak

A real boost to your IT team's qualifications, backed by an industry-recognized certificate

CompTIA Security+ is one of the world's most recognized cybersecurity certifications. It is designed for IT professionals who need to master the key principles of IT security and implement them in their organizations.

What a company gains by having CompTIA Security+ certified IT staff

- Practical upskilling of the team in the key areas of cybersecurity
- Greater awareness within the team of the serious consequences of security negligence
- Significant reduction in the risk of losses resulting from potential attacks by cybercriminals
- Compliance with staff training obligations under regulations such as NIS2, DORA, etc.
- Greater credibility with business partners when it comes to protecting data
- Independence from costly consultations with external security experts
- Higher motivation across the team, thanks to opportunities for upskilling and personal growth
